TYPICAL LED FIXTURE

CAUTION - BE CAREFUL NOT TO TOUCH LED'S

- 1 Remove Bottom Cover Mounting Screw and slide the Bottom Cover down and out.
- 2 From bottom pull Diffuser away from fixture Housing and out.
- 3 Loosen Captive Mounting Screws and remove Mounting Plate.
- 4 Locate Auxiliary Mounting Holes and install anchors appropriate for mounting surface (by others). Caulk around Junction Box and auxiliary mounting (outdoor only) and secure Mounting Plate to Junction Box.
- 5 Make all electrical connections in accordance with local and national electric codes.
- 6 Position Housing Canopy over Mounting Plate, align Captive Mounting Screws and tighten to bring Housing Canopy tight to the wall surface.
- 7 Re-install Diffuser making sure the top edge is recessed in the top cover and the Sealing Edge is engaged in the Lens Gasket.
- 8 Push in Diffuser flush with Housing.
- 9 Re-install Bottom Cover and Bottom Cover Mounting Screw.

When using electrical equipment, basic safety precautions should always be followed, including the following:

- Read all instructions carefully before installing and save for future use.
- Make sure all connections are in accordance with the National Electrical Code and local regulations.
- To avoid possible electric shock, be sure the power supply is turned off before servicing or installing the fixture.
- Service should be performed by qualified personnel.
- These instructions may not cover all details or variations. If additional information is needed, please contact Visa Lighting.
